COURT ENJOINS GAS COMPANY

Ordered Not to Shut Off
Supply in Cleveland
Where Effort Is Made to
Boost Rate.

Cleveland, Feb. 4.—That the East Ohio Gas company will move early next week for the dissolution of the temporary mandatory injunction allowing the Cleveland, East Cleveland, Lakewood and West Park yesterday by Common Pleas Judge Ihler to prevent the gas company from shutting off natural gas at midnight Sunday, was indicated by statements made to the court by attorneys for the gas company.

The granting of the temporary injunction preventing the gas company shutting off service at the expiration of their present franchise and also compels it to comply with the regulatory sections of the franchise recently passed by city council which provides for a continuance of gas at the present rate of 35 cents per 1000 cubic feet, was bitterly fought by the company.

Attorneys believe that the legal battle that will ensue will probably reach the United States supreme court before it is finally settled.

GAS FIGHT WILL NOT AFFECT AKRON SUPPLY

Akron, Feb. 4.—The gas franchise right in Cleveland will have no bearing in the Akron situation, city officials said today. The East Ohio Gas company has a 10 year contract to furnish gas here at a sliding scale from 45 to 50 cents. This contract has nearly nine years to run.

Mrs. Sears has 12 years of training in financial matters and it is her opinion that timidity in revealing to men banking their lack of business training is one cause for the large number of women who own no bank accounts.

HARDING TO CALL BIG CONFERENCE FOR DISARMAMENT

Representative Butler Indi-
cates Call Will Go Out
Early In March.

Admiral Sims Believes Na-
tion Will Be Glad to
Cut Navies.

Washington, Feb. 4.—An international conference to discuss disarmament will be called by the United States, Chairman Butler of the house naval committee said today when the committee met to hear the views of prominent naval officers on the subject.

Chairman Butler did not say when the call would be issued but from his line of questioning of witnesses it was assumed he thought the call would be issued soon after the inauguration of President-elect Harding.

Mr. Butler recently conferred with Mr. Harding at Marion.

Rear Admiral William S. Sims, war time commander of America's overseas naval forces was the first witness examined by the committee.

With Germany's power crushed, Admiral Sims said, all nations could reduce their naval armament by half with safety. He added that he believed the nation would welcome a call for disarmament conference.

Admiral Sims said he agreed with General Pershing that war with Great Britain was "unconceivable" but added that he would not abandon the navy entirely under any consideration even if there were no enemy in sight.

"You can't tell what will come out of Europe" he said. "No body is going to take his hand off his gun."

Specifically, Admiral Sims advised the committee not to stop work on the 1916 building program, particularly the battle cruisers.

Milady's Boudoir

Care of Eyebrows.

Some women appreciate the effect on their beauty of well trained eyebrows and they train and care for them with all the skill they are capable of. The eyebrows are very easily trained to an attractive manner of growth and this attention will surely, in most cases, transform an unattractive face to a much more beautiful one. It is amazing that more women do not rely on their careful eyebrows to enhance their beauty when these brows can do so much to make beauty.

Eyebrow brushes or a fine bristled tooth brush should be used to train the brows. They should be brushed night and morning to promote their growth and to gloss and shape them properly. High arched, delicate brows indicate the aristocrat and the woman who wishes to be considered well bred pays minute attention to these truly important attributes to her beauty.

If the brows are, then a drop of olive oil or almond oil or a bit of pomatum or vaseline, should be rubbed gently into them. The eyes need the protection of heavy lashes and brows, so this care means health as well as beauty.

All shaped brows may be disciplined into the proper outline by the use of muscilage paste with which they should be brushed over every night. Dip the brush into gum tragacanth or quinine seeds dissolved in elder flower water. Let the gum dry on and wash it off in the morning with warm water. A month or two of this treatment will reduce unruly brows to subjection and will cause the coarse hairs to drop out.

Our Boys and Girls

Boys and Girls or Your Children.
Playthings that interested my children for a long time was a doll's tent which can be set up on a carpet or rug and which can contain cots, a table and stool. These can be made of any soft wood. The tent proper is about eighteen inches high, twenty-four inches long and eighteen inches wide. The apron drops, at the sides, are four inches high, and at the front the tent is so divided that the flaps be turned back. While these are called doll's tents the boys like them just as much as the girls and many a tin soldier has slept on the tiny cots.

Cut the muslin for the tent twenty-four inches wide and thirty-eight inches long. One of the pieces is divided so as to part it and affords access to the inside of the tent. The ends sewed fast to the edge of the large piece of muslin and five strings are made fast to act as stanchion ropes. The center of the large piece is the center or ridge pole of the tent and under it the ridge pole is set.

MUSIC AND DRAMA OF THE MONTH

SHAKESPEARE
RECORDED BY
SOTHERN AND MARLOWEWorld's Leading Artists in Many
Vocal and Instrumental
Masterpieces

Unquestionably E. H. Southern and Julia Marlowe occupy the same high plane that belongs to Caruso, Kreisler and other artists in music. Their production on two February Victor Records, of the Balcony scene from Romeo and Juliet marks a new epoch in the progress of sound recording. These records are a splendid dramatic interpretation of probably the greatest love scene in all literature. Romeo has fallen in love with Juliet, although their families are bitter enemies with a blood-feud generations old. At the risk of his life, Romeo makes his way into the garden beneath the balcony, where Juliet has come alone after the night's festivities. He hears her, oblivious of his presence, avow the newly awakened love that is to exalt them to the topmost pinnacles of being. Echoes of the departing revelers and a touch of the music from Gounod's opera "Romeo et Juliet," lend a subtle atmosphere to this scene of which Southern and Marlowe are the greatest living interpreters.

A contrast of strong, ringing, masculine clearness of tone in a slow movement, and intrepid accuracy of playing in a swift and brilliant one, may be heard in the new Victor Record "Scilicet et Rigaudon," by Jascha Heifetz. The Scilicet is a dance of antique dignity, the Rigaudon a furious, whirling rhythm like a horripilation gone mad. Those who love music, and dwell upon its workings in the soul of humanity will find new sources of wonder in this Heifetz record.

"The Fountain (Leux d'Eau)" is a poetic and fanciful composition. The keys melt under Cortot's fingers into a melody which, like the fountain rises sighing toward the heavens, to fall back in a myriad glittering drops, surging, plashing like half-heard bells. The pool is disturbed by a passing wind, its waters shiver into mist and the surface blown into ripples and waves. Then the wind dies down, the pool grows calm, the fountain plays on almost silently, as if by moonlight. This Victor Record attains a rare degree of musical perfection.

Mr. Stokowski says of Beethoven's "Eighth Symphony" played for a Victor Record by the Philadelphia Orchestra—"I chose this movement because of its wonderful beauty. It is full of a light, child-like humor, expressed in music of the utmost grace and loveliness. All these qualities are exquisitely rendered by the orchestra which Mr. Stokowski leads."

"A Dream" is a memory song in which, as Caruso interprets it on a Victor Record, the commonplaces of existence are transformed into something indeed not of the earth. Concert singers have made the song familiar throughout the world. But you have never heard it as Caruso sings it. As it comes forth from the mighty throat of the greatest of the world's living tenor singers, it will indeed reveal to you depths of beauty and emotion which you might well have thought impossible, even with so lovely a song.

Mabel Garrison Heard in Old Hymn

The instinct which bids the oppressed, the falling, the sorrowful, to seek Divine consolation in an hour of trial, is expressed in one of the new Victor Records for February, "The Old Hymn," by Mabel Garrison. This hymn seems to have received from above, the assurance of help and comfort, and to carry it broadcast throughout the world. Its orchestral setting is remarkably beautiful. Miss Garrison sings with perfect, unconscious art and calm steadfastness of emotion.

The "Passapied" from the opera "Le Roi S'Amuse" is Mischa Elman's latest Victor Record. Originally a sailor's dance, it has a brilliant rhythm which snaps out with real musician's spirit, never losing the cheerful spirit and the strong, human heartiness.

Sergei Rachmaninoff gives a new vigor to Mendelssohn's exquisite "Spinning Song" and a most delicate play of cool transparency. The composition is a poetic presentation of the spinning wheel, with its steady, rhythmic whirl. The tone grows soft and luminous as the lustre of a chain of pearls. The master pianist's perfect fingering is an endless source of wonder.

An Irish girl may be dark as an Armenian or fair as "bar gold" at the mint, or she may have raven hair and blue eyes; but she can be quite as adorable as any daughter of earth. John McCormack sings for a Victor Record, "The Irish Girl I Love and She's Just Like You," a delightful, whole-some, natural Irish love song. He sings with sincere, finished art. There is a beautiful interlude in the song for a solo violin against a many-colored background. But it is on the whole a "homey" song that will make you feel like joining in.

"When You're Gone I Won't Forget" implies to another song "When I'm Gone You'll Soon Forget Me." The new song, by the Peerless Quartet, leads the voices through beautifully blended singing, swelling harmonies. "There's A Sweet Home" on the other side of this

Victor Record is sung by Charles Harrison in his best fashion. Its first success was at the Winter Garden in New York.

Victor Roberts gives you a good chance to laugh with "I'm A Lonesome Little Raindrop," a happy-go-lucky rag-time song to a sort of chop-chop accompaniment with bells. "For Every Blue Teardrop on Time" is a good, wholesome song with a simple melody which Roberts sings with the Harmonizers Quartet.

A hit from Billy Murray that sails over the high-field fence, the soft-drink signs and all, is "Oh Gee! Say Gee! You ought to See My Gee-Gee from the Fiji Isle." The Gee-Gee is from the circus, and her costume chiefly a baller skirt of green leaves, a nose-ring, toe-bells and a kick like home-brew. "My Home Town Is a One-Horse Town" in which Victor Roberts harmonizes with the Harmonizers Quartet, is an entertaining march song with a fine swing to it. This is a great Victor Record.

Kreisler Dignifies a Popular Air

"Love Nest," a frankly popular song, is Kreisler's Victor Record for February. It has the same quality of artistic seriousness and finish of a big concert number. The clear, incisive tone of his violin infuses qualities of unbounded beauty into the song's smooth melody and odd tempo. The melody is given first on a single string, with soft bell tones, then repeated in double stops. Kreisler's tone throughout is clear, calm, and ethereally beautiful.

Henry Burr and the Peerless Quartet sing "Broadway Rose" a song in waltz tempo of a rose from the country found drooping under the lights of the "Great White Way." Opposite on the same Victor Record, the Sterling Trio give "Mother's Lullaby." In an unexpected interlude, a spoken voice repeats the first two lines of the refrain with dramatic and beautiful effect.

"O Primavera (Spring)" is a song by Renato Zanelli carries the throbs of self-renewing life in a splendid rhythm and movement. It is as though on real wings, it might have been written purposely for Zanelli's powerful voice.

"If I Were A Gardener," carols Miss Farrar in liquid French! Gardener of the skies, or of Love, as the song has it you may be sure the garden would bloom with lovely and dainty and delectable things! Here is a song, "J'ai un Jardinier (Were I a Gardener)," as gracious and alluring as anything that ever came out of France. The climax, a triumphant, high soprano note, tops it off like a peal of glistening laughter. This Victor Record is one of the most pleasing Miss Farrar has sung.

Lacy Marsh this month has one of the loveliest and most refined of love songs, "Deep in Your Eyes" is sung in a style to excite admiration and wonder. On the other face of this Victor Record is "Once Upon a Time" by Lambert Murphy, a fairy story set to music. The melody, ushered in by rich chords of harmony, may be listened to by the children or their elders with equal pleasure though the declaration of love into which the fairy story develops, makes it a grown-up song. The voice attains great purity and beauty. "Uncle Josh in a Cafeteria" and "Uncle Josh and the Honey Bees" record more troubles for Cal Stewart's famous humorous character. After a disastrous attempt to get a meal in a "help yourself" restaurant, he goes back to Punkin Center and tries to raise bees. The bees don't take to him at first, but when they finally do, he takes to his heels, and with him the village band which has come to serenade the swarm. You don't have to know much about bees in order to enjoy this Victor Record.

New and Original
Dance Music

It will take about two bars for any listener to recognize in "Just Snap Your Fingers at Love, Darling" and "Carresses" as they sound on a February Victor Record, the playing of Paul Whiteman and His Ambassador Orchestra. It will take about two beats to pick up the tempo, and the rest of the evening to dance it. The first of these two medley favorites is full of character and vividness. The second, a smooth, tender, almost cooing rhythm with many original combinations of instruments.

Not long ago Mme. Frances Alda sang a waltz song—one of the most beautiful that has come across the waters in recent years. It is arranged as a dance pure and simple in "If You Could Care" Medley Waltz, a Victor Record of which even Joseph C. Smith's world-famous orchestra may well be proud. "Happy" played by the same orchestra with its usual perfection, a one-step of startling effects, goes at full speed to a tremendous finish.

"My Isle of Golden Dreams" gets creepy, shivery moonlight colorings from the Blue and White Marimba Band. You have heard this waltz before, but on the marimba, it will surprise and delight you as much as a totally new dance. It is backed by "Let the Rest of the World Go By" which Ferrera and Franchini play in the wailing measures of the Hawaiian guitar. A jolly fox trot by the All Star Trio is "Twelfth Street Rag." At the first note your shoulders will begin to rock and your feet to count four. "Doty Dimples," a one-step, is not merely played but also composed by the Trio. It is heard only on this Victor Record, and has not yet been published. It has a new sort of lively, snappy super-jazz that draws electricity out of the floor. The Six Brown Brothers with their saxophones running from the squealing "soprano" to the "contrabass" that would make a bullfrog hide its head, rollick through both faces of a Victor Record in two fox trots, "Wonderful Girl, Wonderful Boy" and "If a Wish Could Make It So." You will think to hear them that not six but a hundred instruments are bubbling over with life and drolery. But as dances, these are first class. A one, XXX, fine stuff.

These Victor Records include the best music for every taste and every purpose. If you have a Victrola, you will understand what a world of enjoyment this month's offering contains. Whether you have a Victrola or not, any Victor dealer will be glad to play for you whichever records of this list you are interested in. They are all worthy of your interest.

SUGGESTS DAY OF PRAYER
FOR PRESIDENT HARDING

Columbus, Feb. 4.—Rev. Z. E. Irvin of Washington C. H., Ohio, has started a movement to have Sunday, March 6, observed over the country as "Pray for the President Sunday." Every church and religious organization, Rev. Mr. Irvin said, "should observe this as a day especially set aside for prayer to God for divine guidance of our president in settling the great questions that he will have to face at various times during his term of office."

"If there ever was a time when the president needed prayers of the American people, that time is now. Prayer is a mighty strong staff to lean on in times of stress. A praying nation is a potent force in shaping and settling right its home problems and international questions."

Rev. Mr. Irvin said that word had been received by him from all parts of the country, from churches and organizations that say they will observe "Pray for the President Sunday."

MOTHER OF 20, FREES

LONDON, Eng.—Mrs. Emily Brooker, married 26 years, and the mother of 20 children, obtained a separation order against her husband. She said her husband left her after nagging at her until one o'clock in the morning. She admitted she said to him, "If you are not satisfied, flip your wings." Her husband had deserted her several times, one time remaining away eight months. Fourteen of their children are still living.

OHIO BRIDE AND GROOM STILL LIVE
ON HOMESTEAD ESTABLISHED IN 1845

Mr. Zion, Ia., Feb. 4.—Seventy-two years ago Daniel Reneker brought Mary, his bride, of a few days, to Iowa from Ohio. Today they are still living on the original homestead they established in the "wild west" in 1845. Reneker will be 99 years of age February 24 and his wife is 97. Their marriage record and the number of years spent on the same homestead probably can be equalled by few couples.

The couple attribute their long years of life to the fact that they are God-fearing and believe in simple life and simple joys.

Mr. and Mrs. Reneker's married life of 75 years, in the eyes of modern day folk, contains few thrills. It has been mostly hard work. Reneker, when a young man, left his home in Ohio to go west to see the country. He returned in a short time to get his Mary. Their honeymoon was spent floating down the Ohio river to the Mississippi on a small boat. On landing at the Mississippi the couple headed north for the cabin Reneker had previously erected in the forest wilderness of Iowa, near their present site of Mt. Zion. There they went and there they are today.

The early years were spent clearing the 160 acres of timber Reneker had purchased at \$1 an acre. Supplies were brought from a trading post 44 miles away. Ground on the tract was broken with the aid of oxen.

Five children were born to the Renekers. Four of them still survive. All are boys. The eldest is Jacob, aged 72, and the youngest is Dr. George W.

Reneker, aged 52. The other two "boys" are Joshua and Dallas Reneker. With the exception of Dr. George, all the sons remain near the old homestead. Dr. George Reneker left home at age of 12. Today he is resident of Falls City, Neb., and is the state representative from the first Nebraska district.

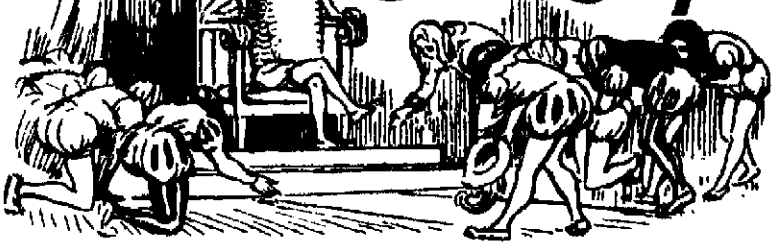

The present home of the Renekers was built in 1861 near the site of the original log cabin.

AUSTRALIA UNDERTAKES
TO EDUCATE ORPHANS

Melbourne.—The Australian government has undertaken to educate the children of Australian soldiers killed or totally incapacitated in the world war. At least 12,000 children are expected to benefit.

The plan covers the whole range of the educational curriculum, in industrial, agricultural and professional courses, together where necessary, with periods of apprenticeship and a subsidy of way of sustenance while undergoing such training. A fund of approximately \$5,500,000 is on hand, which includes a grant from the federal government of \$4,000,000 and a transfer from the repatriation trust fund of approximately \$650,000. Large contributions are assured from other sources.

The Value of the
Corn Crop

[National Crop Improvement Service.]

THREE and one quarter billion bushels of corn were raised in the United States. This crop, on more than a hundred million acres, was worth more than two billion dollars. The war period made our corn worth a little more money, but it is doubtful if its purchasing power was as great.

Of course the great volume of this crop is consumed on the farm.

For several years there has been a constant struggle between feeders of dairy cattle and growers of corn as to money crop; one set of farmers accusing the other set of being profiteers.

Corn is now about at its pre-war price and the problem now is to find enough animals to feed, which at the present price is the most profitable way of handling this immense crop.

The surplus of corn which will be handled through grain exchanges will probably be greater than ever before. It would be a very simple matter if

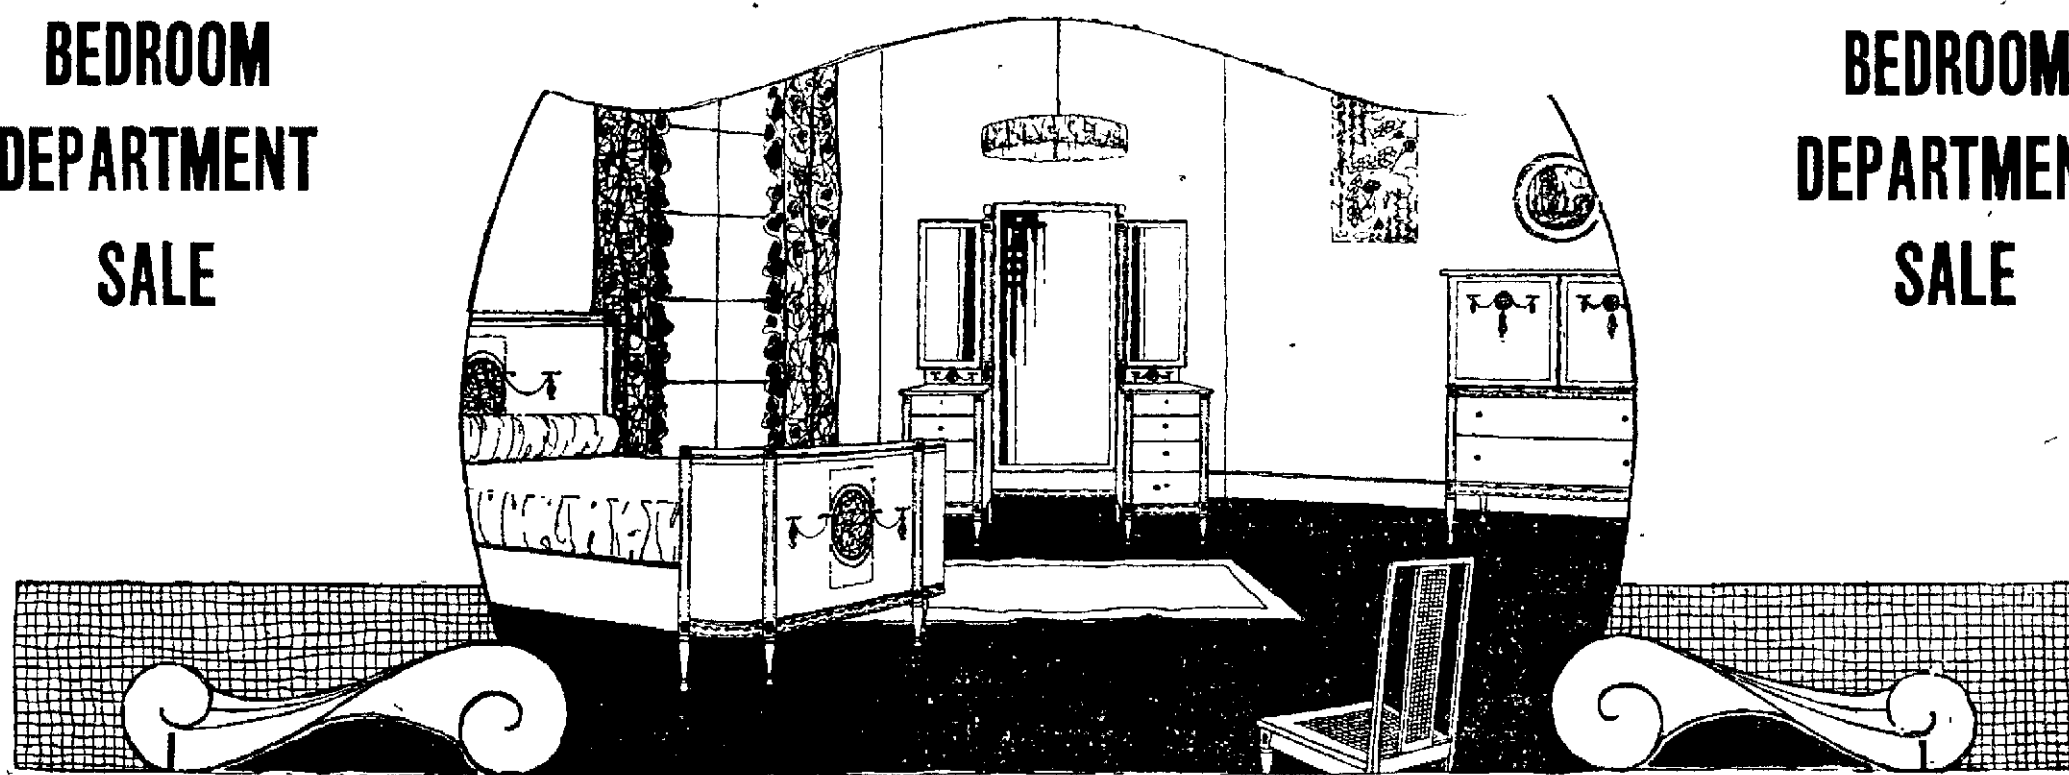

every farmer could feed all the corn he could raise and market it through his animals, but when the price of hogs went down after having been fed with last year's expensive crop of corn, the farmer naturally went out of the hog business and that price is now reflected in the price of corn.

Somebody must own this corn, and farmers generally want to get their money out of it. The commission man borrows the money from his bank, after having hedged his purchase of corn in the country, and the farmer gets his cash in hand, transferring all risk of ownership to the new buyer.

No other commodity is handled so well, so quickly or so economically as grain under the present system.

Farmers' organizations are planning to hold the corn on their own account and market it through their own agencies, which may or may not be an improvement over this present system.

NEBRASKA CLAIMS BEST DAIRY HERD

Eight Cows Have a Yearly
Average of 903 Pounds of
Butter—Several Are the
Champions of the State.

Lincoln, Neb., Feb. 4.—The development of eight cows with a yearly average of 903 pounds of butter each, places the dairy herd at the University of Nebraska farm among the best herds in the United States. The top of the list of agricultural experiment station herds. All eight of the high producing Nebraska cows are Holsteins. At the head of the list is La Verna, champion milk and butter producer of the state and one of the best 16 cows of the world in a year ending December 31, she produced 1,310.56 pounds of butter and 29,554 pounds of milk. Among the eight also is Sultana, champion two-year old butter producer of Nebraska. She produced 866.5 pounds of butter in one year, a remarkable record for a two-year old, and exceeding all previous production figures in this state for a cow of her age.

Another cow in the group is Kate Gerben, who was the three-year old champion cow of the world. She is now 18 years old. At six years of age she produced 831 pounds of butter in one year. In seven milking periods she produced a total of 115,125 pounds of milk containing 4,400 pounds of butter fat. The nutrients in this milk equal the carcasses of 47 1,400-pound steers. Kate Gerben has produced six bull calves which sold for \$2,500.

The dairy herd at the university farm consists of 102 head, representing the Holstein, Jersey, Guernsey, and Ayrshire breeds. Fifty-five head of cows and heifers are of milking age. The head of the Holstein herd is King Plebe Pontine Sogis, for which the university has refused the sum of \$16,500. A son of this sire and La Verna, champion cow, is held at a price of \$10,000. He is 13 months old.

This remarkable dairy herd represents a dozen or more years of careful breeding on the part of the experiment station and the college of agriculture. Extensive experiments are being carried on along several lines of development with the view of demonstrating the possibilities of breeding and feeding, and to encourage the dairy industry.

LIVED IN FOUR REIGNS.
London, Eng.—Eight people who have lived in four reigns were entertained at Fleet. Their ages ranged from 87 to 92. Miss Stevens, the oldest of the party, had to run the gauntlet of a piece of mistletoe hanging over a drawing room door.

MRS. HARDING, SHOPPING IN NEW YORK, CHOOSING INAUGURAL GOWN OF BLUE

Mrs. Warren G. Harding, photographed in her suite at the Ritz-Carlton hotel, where she did her shopping, modistes, tailleurs, etc., bringing their wares to her.

Mrs. Harding, who, as wife of the president-elect, will become first lady of the land March 4, is now in New York doing her first "White House" shopping. And the simplicity of her inaugural day wardrobe and the refinement shown in her selections have drawn her still nearer to those who are just making her acquaintance. Her inaugural gown, already selected, is of "gendarme" blue charmeuse and chiffon, trimmed with stones. Her hat is to be a small tricorn of black malines straw, trimmed with a black and royal blue wing. If the weather is warm she will wear a blue chiffon wrap. For cold weather she has a blue satin one.

BLOOD IS FUEL TO THE BODY

Pumped Through the System by the
Heart It Sustains the Muscles and
Tissues

PEPTO-MANGAN HELPS BLOOD

Keep the Quality of Your Blood at its
Best—It Means Vigorous Health and
Ability to Accomplish

Blood acts like a fuel. Pumped through the body by the heart, it sustains the muscles and tissues. It renews them. It feeds the brain—the tissues of the eyes and face. That is why people look so pale and listless when blood is impoverished. The body tissues are being supplied with weak fuel. The blood has not enough red corpuscles. You would not eat poor food with no nourishment in it; no more should you let the fuel that supplies sustenance to your entire body be inferior. Have good blood. Improve the quality and keep it at its best.

If you look pale and feel weak, if you have lost your enthusiasm and energy, if your blood is clogged with poisons, your system is being fed with a poor grade of blood. That is no way to go around. If you are not at your best, get at the source of the trouble right way. Put an end to half-living. Take that ideal tonic, Pepto-Mangan, to tone up your blood and purify it. Get the full enjoyment out of living. Breathe fresh air, take exercise.

Be sure to ask for "Gude's Pepto-Mangan." It comes in convenient tablet form and in liquid. One has the same medicinal value as the other. There is only one genuine Pepto-Mangan, and the name "Gude's" is on the package.—Advertisement

To Cure Russia by "Absent Treatment"

The Washington Herald declares that "until the Allied Powers have at least a semblance of an agreed Russian policy, chaos is certain to continue. President Wilson proposes a policy of hands off, and this may help clear the air." Both Bolshevik and anti-Bolshevik spokesmen in this country, it is interesting to note, find something to praise in the President's proposal, but correspondents report that it is received coldly by the French press, and with a mingling of praise and criticism by the English papers. "Does Mr. Wilson think America can join the League for five or ten minutes whenever it wishes something, and then get out before it is called on to assume responsibilities?" asks the Paris Journal des Debats; and the London Westminster Gazette conceding that the President's proposal "contains much sound sense," goes on to say: "But when he asks the Allies jointly to guarantee the territorial integrity of Russia, we are compelled to remark that America refuses to share not only in that guaranty but in a guaranty of the integrity of other European states which are members of the League."

Do not miss reading this enlightening article in THE LITERARY DIGEST this week, February 5th. It presents a wealth of information derived from many sources upon the present status of Russia in her dealings with the rest of the world.

NIGHT SWIMMING PARTY IS FILMED
 One of the most sumptuous scenes featured in "The Butterfly Man," the newest Low Cody picture released by Robertson-Cole, which opens today at the Auditorium, is that in which high

tremendous success in New York last season. Mr. Collier's engagement here will be one of the brilliant events of the theatrical season, for he is in such demand in New York, Chicago and other of the large cities that he has very little opportunity for road tours. "The Hottentot," which is described by critics as being the funniest play produced in a number of years, gives Mr. Collier one of the best opportunities of his career. The situations are complex and laughable; the dialogue sparkling with wit and the love interest never lacking. Then too, Mr. Collier will come here with a most capable company of Broadway players under

to the Auditorium Saturday afternoon and evening, with Wm. Lawrence as the silver-haired, innocent yet shrewd John Whitcomb, said to be as captivating as ever in his experiences while searching for the son gone astray in "No. York" and his at times very funny encounters with the luxuries of his old friend's city home amuse as they have done for many years.

The old man's vindictive front of Grace church, where after a series of laughable adventures that acquaint him with a fragment of the night side of city life, he meets with his son sadly under the influence of drink, never fails to touch the hearts of his audience. The film touch who is put to flight by Joshua, the parade of the Salvation Army that the old farmer mistakes for the militia, the robbing of the mail box as Joshua conceives it and the greting of the rejuvenated tramp he has lured back on the farm to start life anew, are all said to be presented with satisfactory favor.

Then there is the singing of the farm hand double quartette, a well trained group of vocalists, and the singing of "The Palms" in Grace church. In a word "The Old Homestead" has not changed a bit in structure since its last visit and August 1910, the producers are beginning a new and elaborate production staged as in former years, which should prove a relief from the modern dazlers in theatricals and be welcomed as of old.

MISS MAYFIELD IS CO-STAR WITH LEAN

Miss Mayfield is seen at her best. This remarkably beautiful woman who became a star overnight in "The Blue Paradise" at the Casino theater in New York several years ago, is funnier than ever. Her rendition of the role of the matrimonial expert is a scream from start to finish. In "Look Who's Here" Miss Mayfield is given ample chance to display her wonderful wardrobe of frocks and Parisian gowns which have made her name synonymous with creators of fashions both in this country and abroad.

"Look Who's Here" is the joint work of Frank Mandel, author of George M. Cohan's "Mary," and Edward Paulson. The music is by Silvio Hahn. Among the song hits are "Tubbies," "The Bell Hop Blues," "When a Wife Gets Fat," "They Think I'm the Right Idea," "Love Never Changes," "Love, Love, Love," "There's a Romeo for Every Girl I Know" and many others.

The story revolves about a young novelist, who, although he can gush love by the yard on paper, allows his young and pretty wife to suffer for the little attentions which it is the duty of every married man to provide. She rebels and accepts attentions from a handsome young foreigner. Then the matrimonial expert steps in and complications whirl the plot along to a happy finale.

Supporting Mr. Lean and Miss Mayfield is a notable cast, including Rhoda Nichols, the Clarke Sisters, Viola Frayne, Margie Brooks, William Wheeler, George Lynch, George Mack and many others. One of the features of the production is the famous Cecil Lean chorus, noted as one of the most enjoyable combinations of color and

for scored a distinct triumph as the original Tyltyl in the New Theater production of "The Blue Bird" has been seen on the screen in "The Story of Illusion," "The Cigarette Girl," "Miss Nobody" and "A Crooked Game."

Florence Dixon, an ingenue with few equals on the screen, has the role of Helen Wynant, two kinds of house and noted leading man John B. O'Sullivan in an important role in the Louis Tracy picture, as does Corinne Barker, beautiful and talented actress.

CLAIRE WHITNEY IN PICTURE "NEGLECTED WIVES"

Claire Whitney, who is featured in an important role in "Neglected Wives," the great photoplay production which is coming to the Grand theater Sunday and Monday, is it said by personal friends of Sarah Bernhardt, bears a strong resemblance to the famous French woman. Miss Whitney's rare emotional portrayal in this great production places her in an even more favorable light with her many devotees.

Miss Anne Luther is starred in "Neglected Wives," and the brilliant cast includes also Charles Gerard, E. J. Ruckcliffe, Baby Ivy Ward, and many others.

THREE REEL SHOW AT THE GEM THEATER

The program at the Gem theater today has for its feature bill the second episode of "The Tiger Band," King Baggott in "The Hawk's Trail" will also be exhibited together with a Star comedy and Current Events.

GOOD BILLS OFFERED AT LYRIC THEATER

"Speck" Leitch, the Kelly Stock company's comedian, this week at the Lyric, is growing in popularity. Last night, as was the case the night before, he was "all the works" and this is casting no reflections on the rest of the company. Only "Speck," just naturally, "holds the attention" of the audience with his absurdities. As Abner J. Pinkham, in "The Lure of the City," he came off with colors flying, too. It has been a long time since Newark audiences have been regaled with as good a brand of comedy as "Speck" hands out. The specialties are all good too, as are those of the other members of the company who take their turn at appearing between the acts.

On Sunday and Monday a western comedy, "The Girl of the Flying X," three acts, built for laughing purposes only, will be the offering.

FILM FLICKERS

Douglas MacLean, the two star, has a most amusing rural comedy in "Chickens," his latest Paramount picture.

William DeMille is making progress at the Lasky studio on an original story by Edward Knoblock, noted British dramatist, entitled "The Lost Romance." The cast is headed by Jack Holt, Conrad Nagel, Lois Wilson, Charles Ogle and others of prominence.

Richard Barthelmess, seen recently in "Way Down East," and other Griffith pictures, has returned to the Paramount banner to play the role of "Youth" in "Experience," the massive production on which work has begun at the Long Island studios under the direction of George Fitzmaurice.

Gloria Swanson will make her stellar debut in Elinor Glyn's "The Great Moment," the production now being filmed under the direction of Sam Wood. Miss Swanson is looking forward with interest to this picture and is naturally enthusiastic over the fact that it is her first individual star vehicle.

Jacqueline Logan has been engaged as leading woman for Thomas Meighan in his newest picture, "White and Unmarried," now in production in Hollywood. Miss Logan has had extended stage experience and among other

things sang the prima donna role in a recent revival of "Florodora."

Lila Lee will be the leading woman for Roscoe (Fatty) Arbuckle in his forthcoming Paramount picture "Three Little Girls." Roscoe's latest completed picture is "Show-Gers Millions" from the novel by George Barr McCutcheon.

After being closed a month to permit extensive alterations and additions to the lighting equipment, the Paramount studios on Long Island have reopened with four productions in progress.

Sir Gilbert Parker is working at the Lasky studio with George Melford in directing "The Money Master," his own story written at the studio. Alice Holister plays the leading feminine role opposite James Kirkwood.

Following "Sham," which Ethel Clayton is now making, William D. Taylor will direct her in a photoplay adapted from a story by Cosmo Hamilton.

Tom Moore has just arrived in New York. So has his director, Victor Schertzinger, and the purpose of the visit is the making of the New York scenes of Moore's next picture for

Goldwyn, which has the temporary title, "Made in Heaven."

Mrs. James Rennie, otherwise known as Dorothy Gish, furnishes a lot of comedy in a burlesque mystery picture called "The Ghost in the Garret."

society gives a silent swimming party. This takes place in a large estate supposed in the story to belong to a society woman who is one of the many admirers of Sedgewick Flynn, played by Low Cody. The backgrounds are beautifully modeled shrubbery and Greek statuary which form a lovely picture beneath the white light of the moon. In the foreground one sees a circular path on which a group of young women are walking, and the purpose of the scene is to show the young lady with whom the hero is to be united, the heroine, who is played by the famous actress, Mrs. Fatty Arbuckle.

The play is a very funny comedy dealing with the story which deals with the daughter of a wealthy man, who is played by the famous actress, Mrs. Fatty Arbuckle. The play is a very funny comedy dealing with the story which deals with the daughter of a wealthy man, who is played by the famous actress, Mrs. Fatty Arbuckle.

In "The Butterfly Man," Mr. Cody is supported by Louise Lovey as the society girl, Lila Leslie as the married society leader, Rosemary Theby, Mary Martin, Mary Land, Alberta Lee, George Phillips, and Alice B. Francis, of the News is also shown.

DOROTHY DALTON AT ALHAMBRA THEATER

Dorothy Dalton is her latest "His Wife's Friend" is at the Alhambra tonight and Saturday. It was produced by Thomas H. Ince, from the popular novel, "The White Rock" and is a story in which mystery is said to be so thoroughly mixed with a love and adventure theme.

Michael Grimwood is unhappily married to a man much older than himself who does not care for her, spending much of his time playing chess. One day a former sweetheart calls upon her and is seen by her husband making love to her. The husband says nothing and invites her the next day to play chess.

After the game the husband is found in a lake on a neighbor's estate. Suspicion points to the wife's admirer, who has now gone to India where he is a major in the British army, engaged in a campaign against the rebels. Returning to England he takes up the trail of the murderer and through a series of adventures and clever deductions discovers that Ling Foo, a Chinese criminal whom he knew in India, has poisoned Lord Robert in a chess game and that Vivvly, lord of the adjoining estate is also guilty.

Through the death by violence of the Chinaman and the husband's heroism and heroism find their ultimate happiness. Miss Dalton as Lady Michael Grimwood, gives some clever work in acting and her support is very good.

COLLIER AT BEST IN "THE HOTTENTOT"

William Collier, whose quiet humor, pleasing personality and inimitable manner of handling out laughs, has combined in making him the foremost comedian on the American stage today, comes here tonight in "The Hottentot," a three-act farce in which he scored a

ables of the stage, just as every town can point to a few ancient structures as revered landmarks.

When one tries of frothy fiction he turns to a stall old classic for mental relief. When theatergoers are unimpressed with stage problems and barefaced comedies they welcome the tried and tested old favorites because they are certain to find there the elements of heart interest that never change.

That's why Denman Thompson's "The Old Homestead" is still going strong and now on its 34th annual tour comes

heavily ever gathered together for the perfect rendition of ensemble work.

KELLEY PLAYERS PLEASE LYRIC AUDIENCE

The "Lure of the City" presented by the Kelley Players, again last night proved a big success and judging by the applause and increased attendance the company is meeting with popular approval. Speck Leitch, the comedian continues to please with his wit and absurdities. Tonight and Saturday, matinee and night, a western play "The Girl of the Flying X." The play is built for laughing purposes only. It was written especially for Mr. Leitch and in his part of "Sputters" the stuttering cow boy, he gets 'em all.

EILEEN PERCY AT THE ALHAMBRA ON MONDAY

Eileen Percy is coming to the Alhambra Monday in a clever screen farce called "Beware of the Bride." In the cast are seen Eileen Percy, Hallam Cooley, Walter McGrath, Harry Dunkinson, Jane Miller, Ethel Shannon, George W. Banta and others.

"THE SILENT BARRIER" AT THE GRAND THEATER

Players of uncommon merit make up the cast of "The Silent Barrier," first of the Louis Tracy novels to be produced on the screen by Gibraltar Pictures for Louis Tracy Productions, Inc. The new W. W. Hodgkinson release commences an engagement at the Grand theater today.

Sheldon Lewis, prominent for years as leading man and character actor on the stage and screen, heads the powerful ensemble in "The Silent Barrier," contributing the same brand of characterization that marked his work while playing opposite such distinguished stage stars as Mrs. Fiske, Ada Rehan and Blanche Walsh.

**ELKS WILL GIVE EXTRA
MATINEE ON MONDAY**

The seat sale for the Elk minstrel
to be given Monday and Tuesday of
next week has been oversold several
hundred. "There is no way to prevent
this unfortunate affair which has dis-
appointed many people who wished to
attend the night performances, and
only demonstrates that three perfor-
mances can be given in the future," said
Elk lodge officials today.

To take care of those who failed to
secure reservations for the evening per-
formances and in order that the pupils
of the public schools may attend a
matinee has been arranged for Monday
afternoon, to begin at 2:30 o'clock, the
minstrel to be given in its entirety.

Admission for adults will be charged \$1 admission
and school children 50 cents and a white
ticket can be exchanged for two school
children tickets.

All seats for the matinee can be re-
served at the box office, 111 Dick-
son street, at eight o'clock for the
evening performances having been
sold. There are only 850 seats which
can be reserved at the Auditorium mak-
ing 1,700 for the two nights and under
the plan of seat reservation, an allot-
ment of ten tickets to one person, the
first 170 people in line secure all the
seats.

The committee announce plenty of
seats for the matinee and the minstrel
will be given at eight o'clock.

The minstrel parade takes place
Monday morning at 11:30 o'clock and
will be headed by the Elk Buckeye band.

**NEWARK UNPREPARED TO
MEET GOD, SPEAKER SAYS**

E. W. Thornton preached on the
subject, "Prepare to Meet Thy God",
at the West Side revival. He said in
part that "Amos the prophet was given
this message to deliver to the people
of his time, when they had gone off
into idolatry and all the consequent sins
of the time. Human nature is essen-
tially the same and practically the same
conditions are prevalent in this age as
were then taking the joy out of the
life of that generation. Today men do
not take time to meditate as our grand-
mothers did, when they were known
for their beautiful Christian charac-
ters. The method and style of our liv-
ing has atrophied our ability to medi-
tate."

"Why are we unprepared to meet
God? Because we are, and we know it.
If we think of the unpreparedness of
this world to meet our president-elect or
his wife, Mrs. Harding, if they were
suddenly to announce that they were
coming to Newark, we can imagine
what a feeling of unpreparedness we
would have if we were called to come
before God tonight. Some of you may
have to meet God tonight or this
week."

"How we are to meet God is to be
learned from reading the teachings of
the Lord. His disciples in the Bible
were educated in that thing."

Here Mr. Thornton gave a descrip-
tion of a light house that was not shin-
ing its warning light to the ships in the
storm at sea, likening it to the man or
woman who does not reflect the light
and teachings of Jesus to their fellow-
men. The sermon was concluded with
a quotation of scriptures in answer to

the question "How are we to prepare
to meet our God?"

The church was crowded to hear the
sermon and to see the pictures that P.
M. Kendall, the singing evangelist, is
showing of his trip to Palestine.

Tonight the sermon will be an an-
swer to the question put to Mr. Thor-
nton at the close of last night's service,
"Do You People Think That You Are
the Only Church?" The travelogue will
be a continuation of the views descrip-
tive of Jerusalem on horseback.

U. S. FLEET ENTERTAINS.
Lima, Peru, Feb. 4.—Festivities and
ceremonies incident to the visit of the
United States Atlantic fleet at Callao
and the presence of officers and men
from the ships in this city came to a
close today. One hundred officers from
the fleet were given luncheon by offi-
cers of the Peruvian navy and Presi-
dential Legat, and later many of the
visiting marines attended religious
services at which the archbishop of
Lima officiated.

EDWIN JONES FUNERAL.
Columbus, Feb. 4.—Funeral services

the Republican state executive com-
mittee and candidate for the Republi-
can nomination for governor of Ohio
in 1918, who died here yesterday after
a long illness, will be at Jackson, Ohio,
at 2 o'clock tomorrow. The body was
viewed by friends here this morning.

NEW TRIAL DENIED.
Defendant Fred J. A. was tried for
Joshua Botkin, convicted of the murder
of the infant son of his housekeeper,
was denied today by the court of ap-
peals which upheld the decision of the
court of common pleas. Botkin was
sentenced to a life term at hard labor
in the state penitentiary. Botkin killed
the child by whipping it to death with
a leather harness tug, it was charged.

ASSOCIATION COWS AVERAGE
5,990 POUNDS MILK OUTPUT
Tabulation of the yearly records of 38,532 cow-testing association cows has brought to light much valuable information on the relations between milk and butter-fat production, butter-fat test, income over cost of feed, and other factors, say specialists of the United States Department of Agriculture. The average milk production per cow-year was 5,880 pounds; butter-fat, 246 pounds. Butter-fat test, 4.15 per cent. Income over cost of feed, \$55.93; returns for \$1 expended for feed, \$2.11.

The records show that in those associations where the work has been continued for a long period the production has generally increased from year to year. As production increased, the income over cost of feed increased rapidly and for each increase of 50 pounds in butter fat there was an increase of \$15 in income over cost of feed.

Cows that freshened in the fall produced more milk and butter fat and greater average income over cost of feed than those which freshened in the spring or summer. Large cows excelled small cows of the same breed in production of milk and butter fat and in income over cost of feed. As the butter fat test increased the average production of butter fat advanced and the average production of milk declined.

Bull market tomorrow will say "Business in the wool markets during the past week has been hardly so keen as during the preceding fortnight, although some demand is in evidence, more especially for the fine and fine medium domestic wools at about the rates previously prevailing. The government caused considerable resentment on the part of the buyer by cancelling the wool auction scheduled for Thursday with only 24 hours notice and without explanation.
The manufacturing situation is withal change, weavers, spinners and combiners representing very moderate business at steady rates. The emergency tariff bill is generally believed to be a dead issue."

Chicago Grain Review.
Chicago, Feb. 4.—Selling that appeared to be largely on European account had a bearish effect today in the wheat market here. As a result May delivery fell to the lowest price yesterday for the present report. There was a report before the opening that Italy would be a purchaser but no demand from the seaboard was noted in the early dealings. Initial quotations which varied from unchanged figures to 1/2 cent higher, with March \$1.53 to \$1.53 1/2 and May \$1.43 1/4 to \$1.44 were followed by a material setback all around and something of a rally.
Corn declined with wheat. After opening 1-8 off to 3-8 cent higher; including May at 65 1/4 to 64 1/2c, the market underwent a moderate general sag.
Oats were depressed by the action of other cereals, starting 1-8 cent lower to a like advance, May 41 to 51 1/4c and then receding for all deliveries.
Weakness of grain and hogs pulled down provisions.

Crucible Steel was the conspicuous feature sale of 600 shares down to \$7 1/4, showing an extreme loss of 24 points. At this level supporting orders soon forced the stock back to a fraction above yesterday's close. Other stocks were extremely irregular as were also oil shipments and rails. ALWAYS TIRED

Redex Gave Me New Strength and Ambition, Says Chas. Myers.

The claims made for Redex, the new herbal remedy, which is meeting with wonderful success wherever introduced, is that it will prove a great help in restoring your system to a perfect state of health if you are suffering from stomach, liver and kidney trouble, poor blood, nervousness and are in a weakened and debilitated condition.

Mr. Chas. Myers, salesman with the Ashland Tire & Rubber Co., living at 504 S. State St., Marion, says: "For some time I have felt very weak and drabby; had no appetite and nothing tasted good to me; had frequent headaches and I felt highly nervous. Very seldom got a full night's rest, as I found it difficult to get to sleep and would always wake up several times before morning. After I started taking Redex and felt a decided improvement at once. My appetite is decidedly good and any sort of food agrees with me. I have completely overcome that tired, drabby, nervous condition. I get a good night's sleep and feel fine in the morning."

"Redex is a splendid medicine and I certainly am glad to recommend it." Redex can be had in Newark at all first class drug stores.—Adv.

PAINS IN BACK KEPT HIM AWAKE

B. & O. man claims Dreo toned up his stomach, relieved the dizzy spells, sharpened his appetite and produced sound, refreshing sleep.

"The pain in my back was so severe I couldn't sleep and got so bad at times I could hardly straighten up," said Mr. M. L. Billingslea, who lives at 40 Gay St., Newark, Ohio. "Nothing I ate seemed to agree with me, just cramp my stomach and filled me with gas. I was so bilious that I felt lightheaded and was nauseated all the time."

"I hadn't been taking Dreo long before I noticed a great improvement, so it must have been just the right thing for me. It relieved the pain in my back, soothed my stomach, got rid of the dizzy spells, gave me a good appetite and produced sound, refreshing sleep. I am well able to do a man's work now and think Dreo is truly a medicine out of the ordinary."

Now is the time, if ever, to banish dyspepsia, indigestion and health-destroying stomach troubles. During this season of the year nothing should interfere with the work of toning the weak stomach, nerves and giving strength to the various organs of digestion. The great root and herb remedy Dreo has proven its powers to restore full activity to the vital organs, as is shown by persons who have taken it.

Dreo is being specially introduced by Evans' Cut-Rate Drug Store in Newark, O., and sold by all druggists.

USE IODINE FOR SKIN IRRITATIONS

Pimples and Blemishes Vanish.

If people would only have Iodine in the home at all times for a family remedy, they would nip in the bud many serious afflictions and always have an antiseptic and healing remedy for everyday accidents and ailments says a woman who speaks after many years' experience in raising a large family.

"Take Eczema for instance," she says "we used to call it St. Anthony's fire when I was young. The red, irritated swollen skin, the itching and burning are maddening, and Iodine is the remedy."

Physicians are practically unanimous in recommending Iodine. They prefer it in its best form—Lanolated Iodine Compound—which is soothing, healing and powerful, yet never irritates or blisters, and is practically stainless. It is quickly absorbed into the tissues and glands, usually giving prompt relief.

Druggists have this agreeable Iodine ointment and gladly recommend it as it gives unusual satisfaction. Be sure to get Lanolated Iodine for best results.

MASH

This Is Why. Read This Scientific Explanation by Prof. Dickson, Michigan Agricultural College.

"To obtain most efficient egg production a mash ration rich in nitrogenous matter is the first requisite. The egg itself is a meat or nitrogenous matter and unless the hen gets this same kind of food in the form of bugs, worms, milk or meat scraps in her daily menu—she cannot produce an egg which contains it."

"Of the above mentioned concentrates make—particularly buttermilk—is best. The lactic acid in buttermilk disintegrates or breaks down the carbonaceous concentrates of the grains and renders them more readily assimilable and increases the efficiency of the entire digestion process just that much more. This value in buttermilk is in addition to the nitrogenous value above described and accounts therefore for the estimable value of Buttermilk to the ration."

—Prof. M. E. Dickson, Mich. Agr. College.

SNAP AND SPEED FEATURE SHOW BY K-P LODGE

Good Music, Funny Comedians
and Clever Specialties
Make Minstrel a Success
—Will Repeat Tonight.

The Knights of Pythias minstrels last night moved along at a rapid speed and the audience which taxed the capacity of the High school auditorium, was enthusiastic in its applause.

The show was given under the auspices of Roland lodge. It will be repeated again this evening.

The curtain went up on the first part, the men dancing to their seats, while they sang a medley of "Keep Your Eyes on Your Girl," "I Don't Have to Die to Go to Heaven" and "Whispering."

The chorus was in khaki, while the double quartet was garbed in purple satin Colonial costumes with yellow hose.

J. F. Pfeffer presided as Interlocutor and introduced the first premier ends J. S. Loughman and Fritz Drake.

Loughman's song, "It's Your Move Now," was encouraged and his jokes made a hit. Fritz Drake had some clever bits of comedy and sang "Oh By Jingo." A pleasing ballad number was "When the Rose Bled Summer Goodbye," by Clarence Shirley, Ed. Lahey, who sang "Don't Let Us Say Goodbye."

At this time the second edition of the premier ends took possession of the fun. Emil Lautenschlager made a stage entrance, while Harry Ingram sped up the aisle through the audience. That they were favorites was shown by the enthusiastic applause with which they were received.

Baby Frances Lautenschlager, one of the big features of the program sang her clever song number "Storybook Ball" wearing a costume of green satin and white fur, she made a big hit as her clear, sweet little voice carried over the entire audience. She was forced to take two encores.

Harry Ingram, waxed poetic in his comedy and possessing a good voice, he gave a good rendition of "Sweetness." John Lahey sang "Somebody the audience began to laugh before Lautenschlager started and did not stop until he did. His dance steps were good as was his song number "In the Days of Old Black Joe." Lautenschlager and Ingram, united their forces and were clever in an eccentric song. For the concluding solo of the first part Fred Cole sang "At the End of a Weary Day." The ensemble for the first part was "Mother, Dixie and You."

J. S. Loughman opened the olio with a monologue of the colored parson, and his comments on crap shooting were clever in their comedy take-offs. The audience was given another opportunity to enjoy Baby Lautenschlager, who in a ruffly frock of white sang "Daddy, You've Been a Mother to Me," and in a frock of rose silk came back with the encore number "Stuttin' Yo Stuff."

One of the big hits of the show was the sketch "The Recruiting Station," presented by the Crescent Comedy Four, under whose direction the entire minstrel was presented. Harry Ingram scored a big hit as the Jewish doctor and was ably assisted in the fun making by Emil Lautenschlager as Tubby Doolittle, Fred Cole as Percy Nut and Clyde Cole as the doctor's assistant.

Paul Brown, who has appeared before Newark audiences on former occasions, and has had professional experience gave a rube monologue act, which was well received. The final number was the old time minstrel plantation act, in which plantation songs and dances were introduced.

Those who assisted in making the show successful were John Lahey, Clarence Springley, Harry Robinson, Fred Cole, Ed Lahey, Robert Rhodes, Clarence Crossley, Clyde Cole as white face dancers and singers, and the following made up the personnel of the chorus: Clarence H. Davis, Charles Smith, Harry Weasley, William Healy, Beck, Glen Robinson, Arthur Wheeler, Herbert Reynolds, Harold McFarland, Howard Weakley, Edgar E. Higgs, Mart Rider, Walter Moser, Homer Stump and Thomas Willey. The black face auxiliary ends were Harry Packer, James Rutledge, Ed McMurtry, Forest Muhleman, Charles Shrigley, Homer Martin.

There has been a big seat sale for the second performance of the minstrel this evening.

BILLY SCHOBBER DEFEATS "ROUGH HOUSE" CHARLIE

Billy Schobber of Indianapolis, in an interesting match with "Tough House" Charlie Ross of Cuba defeated him last night at the Auditorium, securing two falls in three. Ross was to have met Paul Bowser, but owing to injuries received in a match with Chief Montour in South Dakota Tuesday night, Bowser was unable to appear. It was arranged for Schobber to take his place and he did so to the satisfaction of the fans here.

Ross, who outweighed Schobber eight pounds, started out like a whirlwind and obtained the first fall after 20 minutes with a scissor on the arm and a wrist lock. Schobber came back in the second fall and threw Ross with a headlock after attempting the hold four times.

The match ended when Schobber clamped on a step over toe hold at the end of 16 minutes for the third fall. Ross immediately discovered that Schobber was a wrestler and rather than risk any injury to himself.

Billy Gallagher of this city got a decision over Cyclone Hurley of Toledo when after the end of 33 1/2 minutes of rough work Hurley was disqualified by Referee Wallace for using the strangle hold.

Ralph Lane, the local lightweight, who is coming rapidly to the front in wrestling here, and Sam Travilla, Greek flyweight champion, wrestled to a draw in the 15-minute time limit allowed them. The work of the boys was clever and was enjoyed by the good sized house which greeted the wrestlers last night.

The Philadelphia Evening Ledger said "SHAVINGS" was DELIGHTFUL.

Both of Thursday night's Senior Y games resulted in lopsided scores. The Neale avenue squad swamped the First Presbyterians in the first game by a score of 26 to 5. G. Harlow was the big scorer for the Neale avenue team with five field goals.

The Maple Avenue C. U. team which lost in the second game also made only five points. Cramer and Radcliff made the field goals and Johnson shot the foul. This team was very much weakened by the absence of Vandenberg and Pine. Forsythe and Slocum divided scoring honors on the Junior Moose team with five field goals apiece. Final score: Junior Moose 29, Maple Avenue C. U. 5.

Next Week's Games.

Tuesday—Heisey vs. American Bottle; First Presbyterians vs. Printers. Thursday: Burke Golf vs. Heath; Midland vs. Y Seniors.

The fast passing American Bottle team just naturally walloped the socks off the Y Senior team in last night's opening game in the Y Industrial league. The triangle boys felt the absence of Christmas. The north end boys were able to get away from their opponents and dropped in 11 goals for the count of two each. The way these purple and white players turned and passed indicates that they are in the run for the league leadership and mean to wallop the Heisey aggregation when they clash for their second time on next Tuesday. Tuesday's game will undoubtedly be the biggest event of the second round of play.

The Printers gave the Heath squad a scare in the first half of their game last night by letting them down to a 13 to 11 score in the opening period. The pace was too hot in the second half and Spencer was the only type juggler to find the ring with the result that the refinery men took the game with a score of 31 to 19.

Both the Heisey team and the Y. Senior team have entered the names of a new man to be eligible to play February 24 the former getting F. Smith, and the latter team Edward Fernschild.

NEW STYLE OF COIFFURE.

Paris, France. Oil-soaked hair is a novel form of coiffure introduced by the Russian ballet which has just opened here. The women dancers have cut their hair short and so saturated it with oil that it looks like a skull cap. Their eyebrows are painted in a long fine line which runs right back to the roots of the hair, giving the line the appearance of a Polish doll.

You will talk about "SHAVINGS" for years after you get acquainted with him.

UPSON BROTHERS GET CITY COAL CONTRACT

The Upson Brothers Coal Mining company was awarded the contract for the coal supply for the city for the period from February 1 to August 1, 1921, following the opening of the coal bids in Service Director Glierist's office Thursday noon. The price for run of mine coal was \$2.75 per ton at the mine. Of the several bids received the successful bidders were the only ones who furnished a legal bid. The coal which is for the water works department amounts to 1,800 tons for the six months' period.

"The love of money is the root of all evil," quoted the good deacon. "And yet more people are ashamed of their poverty than their wealth," replied the unregenerated blackslider.

Don't Make Your Gas Bills Bigger

Efficient Use of Gas Will Prevent It

Now that higher rates are in effect in Newark do not allow yourself to use more gas than is necessary and thereby increase the aggregate amount of your monthly bills.

Use gas with more efficiency and you will have the best service at no higher cost than under the old rate.

While Newark used 60,000,000 cubic feet of gas more in the first ten months of 1920, the City of Lorain used less than half the gas in 1920 that it did in 1919, and had the best service that city has enjoyed in the last four years.

We have re-established our demonstration at our office and we want to instruct all consumers how to use gas efficiently:

- Raise Burners in Cook Stoves.
- Adjust Mixers for Perfect Combustion.
- Effect Savings in Heating Stoves.
- Economize in Hot Water Heating.
- Secure Efficient Auxiliary Appliances.
- Secure the greatest service possible out of the gas consumed.

How To

The Logan Natural Gas and Fuel Company, which supplies gas to The Newark Natural Gas and Fuel Company, is doing all that it can do to keep a dependable supply of gas available, but consumers must do their part in conserving gas to make this possible.
